

## Beacon Stack

## Beacon Product & Packages Overview

**Beacon Platform** is our core product offering that combines Beacon Cloud, Developer Tools, and Financial Frameworks, and it is the baseline for all Product Packages.

**Our Product Packages** offer bundled features and functionality purpose-built to accelerate capital markets use cases. Powered by Beacon Cloud, each of our Product Packages include access to Applications, Financial Frameworks, and Developer tools tailored to a specific industry, trading strategy, or asset class.
